

### **Description of Execution of Test Cases**

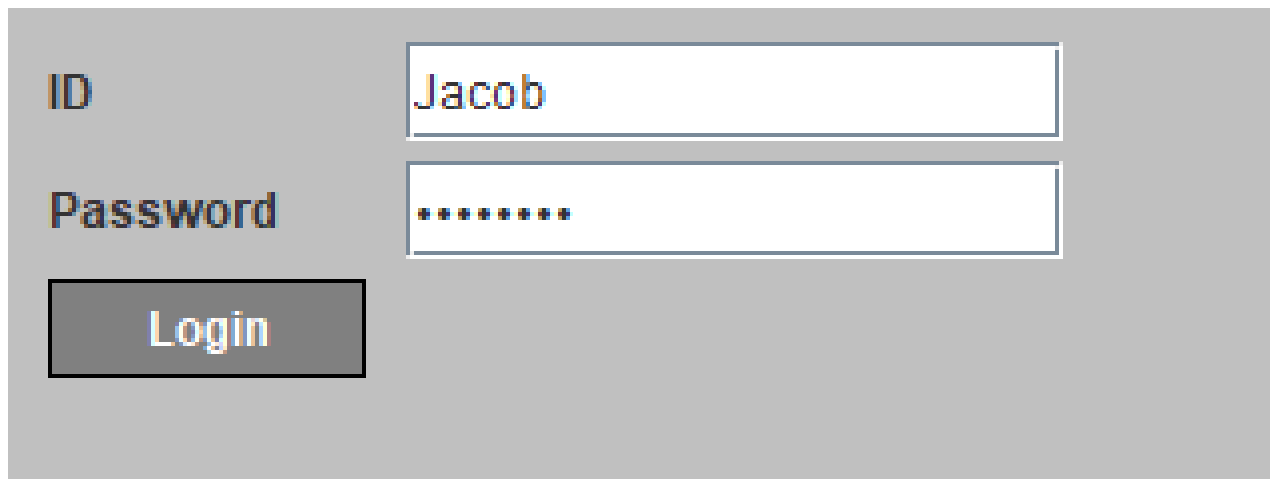

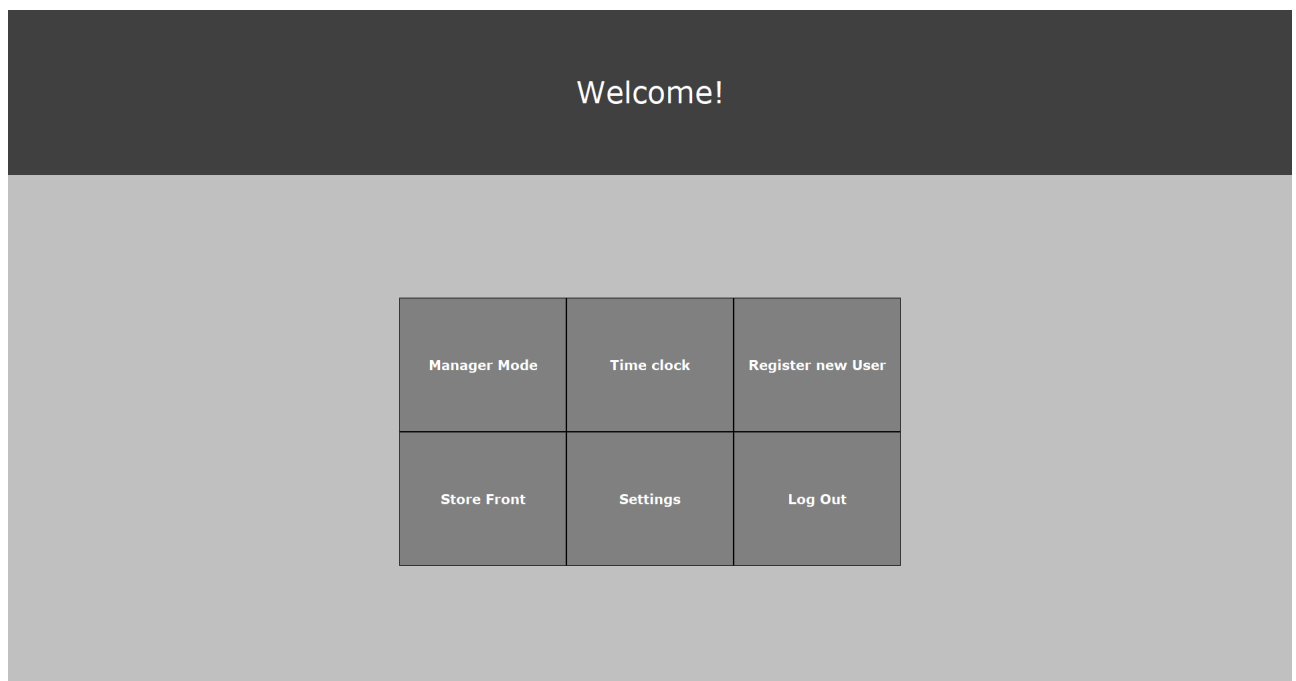

We have 3 parts where acceptance cases are needed, mostly for security reasons, these would be the Login portion of the program, and the parts where you would like to access manager functions (Manager Mode, Register New User). Included Below are the acceptance cases needed for these functions.

### **Login/ID (examples/acceptance cases)**

User: Jacob                      Password: password

User: Rodrigo                  Password: password

User: John                      Password: password

A login form interface with a light gray background. On the left, there are labels 'ID' and 'Password' in a bold, sans-serif font. To the right of 'ID' is a text input field containing the text 'Jacob'. To the right of 'Password' is a password input field with 10 dots. Below these fields is a rectangular button with the text 'Login' in a bold, sans-serif font.A welcome screen interface with a dark gray header bar at the top containing the text 'Welcome!' in a white, sans-serif font. Below the header is a light gray area containing a 2x3 grid of buttons. The buttons are labeled 'Manager Mode', 'Time clock', 'Register new User', 'Store Front', 'Settings', and 'Log Out' in a white, sans-serif font.

## Manager Security (examples/acceptance cases)

Manager Code is: “258” for both security cases

Welcome!

Security - Manager ...

258

GO

1	2	3
4	5	6
7	0	9
Clear	0	Exit

Manager Mode	Time clock	Register new User
Store Front	Settings	Log Out
